

## Brighter Days – JJ Grey & Mofro

**F**        **C**        **G**  
Don't stop even for the right thing  
**F**    **C**            **G**  
does it matter what I say?  
**F**        **C**            **G**  
My whole world was by that river  
**F**  
flowin' north to meet the sea each day  
          **C**            **G**  
I don't want to move away

**F**            **C**                    **G**  
You look at me and ya say "what's wrong boy?"  
**F**            **C**                    **G**  
What else do you want me to say?  
**F**    **C**            **G**  
I don't want to leave tomorrow  
**F**  
been and gone but I belong here now  
          **C**                    **G**  
Your big world can wait another day

### chorus:

**F**        **C**                    **G**  
Brighter days where did they go?  
**F**        **C**                    **G**  
Brighter days where did they go?  
**F**        **C**                    **G**  
Brighter days where did they go?  
**F**        **C**                    **G**  
Brighter days where did they go?

**F**    **C**                    **G**  
I am hopeful for where I'm goin'  
**F**        **C**                    **G**  
but I belong in the South  
**F**        **C**                    **G**  
That was where I was born a poor boy  
**F**  
livin' life like there's no end in sight  
          **C**                    **G**  
Even so I've done without

**chorus:**

**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?

**G**  
Boy you about to hit the bottom  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?  
**G**  
Boy you about to hit the bottom  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?

**F C**  
I'll be alone I feel I'm movin' where  
**G**  
To a land you never saw

and I see you 'bout to hit the bottom  
**F C**  
Lord help me move away  
**G**  
to a land you never saw and I've seen  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?  
**F C G**  
Brighter days where did they go?

**continue and fade**
