

## By My Side – JJ Grey & Mofro

E

There, there's a time

G A E

and a place for everything

E

Hear these fools tell you who you are

G A E

but you don't hear a doggone thing

E

And maybe that's why, why I love you

G A E

Maybe that's how I feel your pain

E

Cuz we're both falling down

G A E

and there ain't nobody to blame

### chorus:

G A E

I ain't going nowhere

C D E

I ain't gonna hide

G A E

I ain't going nowhere

C D E

with you by my side

E

There, there's a road

G A E

that we walk but cannot see

E

Feel its spirit come and go

G A E

make me whole shape me out of clay

E

Now you know just how feeble

G A E

and how weak a man can be

E

And still you're pleased,

G A E

pleased to be with me, with me anyway

### chorus (repeat 2x)
