## WYLF - JJ Grey & Mofro

C magnetism chemistry feel the electricity
F coming off of you
C there's no need to try to hide that come hither in your eyes
F I know you want it too

chorus:
G F C this is what you're looking for

I seen it on the break
G F C this is what you're looking for

C your fingers set a fire in my skin a deep desire
F oh so naturally
C

## chorus:

G F C
this is what you're looking for

I seen it on the break
G F C
this is what you're looking for

I know baby I know it and you know it

G F C this is what you're looking for

\*\*The F is not necessary to play throughout the verses, you can easily play just in the Key of C throughout with the only changes coming in the chorus.\*\*
